HOW TO COUNTER THE LIES OF CRITICAL RACE THEORY

1. What is CRT?

- A racist and Marxist ideology focused on creating division and racial conflict.
- It's stated desire is to think critically about American history through the lens of race.

2. What is the goal of teaching CRT? (It isn't always directly labelled as CRT, and the use of terms like "equity" and "inclusion" are hints that CRT is being taught.)

- To create two primary classes of people, the oppressor and the oppressed, and have all white people confess their guilt as part of the "system" of oppression. Individual stories and histories don't matter, only the fact that a person is white matters.

- To continue the racial divide in America in pursuit of the goals of socialism and communism.

The use of CRT is the same tactic used in the Russian Revolutionary era of 1917 where it was the bourgeoisie vs the proletariat. By creating racial division, those who desire a communist government

- To indoctrinate students into false teachings concerning the history of the United States. CRT and the 1619 Project are the two main sources of the lies concerning false histories of the U.S. The big lie is that America was founded to perpetuate slavery and racism.

- The ultimate desire is to eliminate so called "systemic racism" in the U.S. But in order to start over, society as it is currently structured must be destroyed, it cannot simply be reformed.

3. How to counter the arguments.

- The United State was founded on the desire for religious freedom.

- America's founding documents did not include anything concerning race or gender, only principles that when pursued would result in the freest nation on earth. In fact the founding documents rejected anything based on race or gender.

- America followed right behind Great Britain in eliminating slavery, which was never specific to one race, but to all races. In the end we fought a Civil War over a combination of state's rights and slavery.

- Mankind has made significant progress in race relations, CRT destroys that progress.

- Push school boards to eliminate contracts that have any basis in CRT or CRT based teachings.

- Do not allow any school boards to include the language of "equity" or "inclusion" anywhere in curricula, teacher ethics guidelines, or any document that would give schools room to include lies and division in their teaching standards.

- Demand that your state legislatures outlaw the teaching of CRT or any CRT aligned curricula.
